

Asuris Northwest Health has joined forces with MultiPlan, Inc., to offer you additional provider choices when you seek care outside your local Asuris service area. **Effective in January 2013, when you are outside Washington, Idaho, Oregon and Utah, you can seek care from PHCS Healthy Directions or MultiPlan network providers and receive coverage at the same level you would receive if you were in the local Asuris service area.**

### How to find PHCS Healthy Directions and MultiPlan Network providers:

- 1 Go to [asuris.com](http://asuris.com) and choose “*Find a Doctor*” and then “*National Provider Directory-Search for PHCS Healthy Directions and MultiPlan providers,*” where you will be linked to [multiplan.com](http://multiplan.com). (We will add this link to [myAsuris.com](http://myAsuris.com) by the end of January 2013.)
- 2 Click on the “*Search for a Doctor or Facility*” button and then choose the “*Back of the Card*” box with the PHCS logo.
- 3 Follow the prompts to enter your search criteria.
- 4 If you don’t find a provider, go back to the “*Identify your Network Logo*” page and choose the “*Back of the Card*” box with the MultiPlan logo to search for providers in the MultiPlan network.
